

 <p><b>MaineHealth</b> CANCER CARE NETWORK SUPPORTED BY THE HAROLD ALFOND* FOUNDATION</p>	<b>Genitourinary Oncology Guideline for Referral to a Patient Navigator in the MaineHealth Cancer Care Network</b>	
	Original Date: 11-23-15	Review Dates: 2-27-19; 2-26-20
	MaineHealth Genitourinary Work Group	

**For Newly Diagnosed Prostate Cancer Patients**

**Goal:** >90% of newly diagnosed localized prostate cancer patients within the MH system should be referred to a GU nurse navigator or local hospital navigator and provided with shared-decision making (SDM) support.

**Rationale:** Specialty bias exists regarding treatment recommendations for localized prostate cancer.
