

# SHOULD I BE SCREENED FOR LUNG CANCER?

MaineHealth  
CANCER CARE NETWORK

SUPPORTED BY  
THE HAROLD ALFOND® FOUNDATION

## TALK TO YOUR PROVIDER IF YOU:

Are 55 to 80 years old

Smoke or quit smoking within the last 15 years

---

At early stages, lung cancer may not show any symptoms. Screening could help save your life. Talk to your health care provider about whether lung cancer screening is right for you.
