# LET'S GO WATER POSTERS

The Let's Go! Water Posters remind kids that water is the number one thirst quencher. The posters can help encourage kids to drink water at your program! Hang them above water fountains and sinks, in gymnasiums, and anywhere else kids spend time being active.

The Let's Go! Water Posters can be found in the front pocket of this toolkit or online at [www.letsgo.org/toolkits/](http://www.letsgo.org/toolkits/).
