Ellsworth Street Detour, Saturday, July 21

Ellsworth Street will be closed between MMC's main entrance and Hill Street on Saturday, July 21, to allow for the disassembly of a large crane that was used for the East Tower expansion.

Flaggers and police details will be stationed throughout the neighborhood to direct drivers around the road closure, using streets including Hill, Russell and Bramhall. The disassembly will also necessitate the temporary closure of the small park on Ellsworth Street that is across from Wescott Street.

As part of the disassembly, the end of Crescent Street closest to the Emergency Department will be reduced to one lane, with flaggers stationed to direct traffic.

The work is set to begin at 7 a.m. and end by 7 p.m.

Please visit www.mmc.org/modernization for ongoing project updates.
