UPDATE - Gilman Street Portion to be Closed Through Weekend

The section of Gilman Street between A Street and Congress Street will be closed to all traffic from Monday, April 25, through Friday, May 6 to accommodate steel erection at Malone Family Tower construction site.

Contractors previously planned to reopen the section on April 30 and May 1, but forecast inclement weather has forced them to keep the section closed so work can continue over the weekend, allowing the steel erection to stay on schedule. The street will be closed 24 hours a day during this period.

The detour route down A Street to Valley or St. John Street will be clearly signed, and flaggers will be on hand to direct traffic, as well.
