## Site Prep for East Tower Construction begins April

---

Construction site preparation for MMC's East Tower addition begins on Monday, April 9. Wescott Street will be fenced off and closed for approximately a year to accommodate a crane and other construction activity. Crescent Street will become a two-way street during that period to allow access to MMC's Emergency Department.

There will be no on-street parking on Crescent Street as a result. Residents who rely on on-street parking will be accommodated in MMC's South Lot, at the corner of Bramhall and Chadwick streets. To receive a parking pass for a spot in the South Lot, neighbors can bring a proof of residency (driver's license, utility bill, etc.) and your vehicle's license plate number to the Security Desk in MMC's East Tower (easily accessible via the main entrance on Bramhall Street). Questions can be sent to [parking@mmc.org](mailto:parking@mmc.org).

Construction on MMC's Visitor's Garage begins in May. Congress Street will be temporarily blocked for eight weeks, from May 7 to June 29. A detour map is available at [www.mmc.org/modernization](http://www.mmc.org/modernization).
