

Feb. 18, 2021

Weekly Construction Activities, week of 2/22/2021

Congress Street Enabling:

- Retaining wall and excavation supports and reinforcement continues
- Installation of steel piles, to support excavation, began Tuesday 2/16. Expected completion in a couple of weeks. There will be noise and slight vibration due to this operation. Additional seismographs have been added to the surrounding area to monitor the vibration activity from this operation.

Scarborough Medical Office Building:

- Building enclosure ongoing, brickwork and window installation continues.
- Ongoing trucking and deliveries along Campus Drive.
- Interior fit-out ongoing; Framing, Electrical, HVAC and Drywall.
