

March 10, 2022

## Weekly Construction Activities, week of 3/14/2022

---

### **The Malone Family Tower**

- We have completed the majority of the concrete foundation wall pours.
- Ongoing material deliveries to the construction site.
- Concrete foundation pours will continue through May.
- We will be installing underground utilities in the Visitor Garage's lowest level.
- We will be setting in place the large mechanical units in the Malone Family Tower's future basement.
- We will begin to install the steel structure (columns and beams) the week of March 21, which will begin to describe the future size and shape of the Malone Family Tower.
