Weekly Construction Activities, week of 3/28/2022

The Malone Family Tower

- Ongoing material deliveries to the construction site.
- Concrete foundation pours will continue through May.
- We will continue to install underground utilities in the Visitor Garage's lowest level.
- The steel columns and beams for the structure of the building have arrived and are starting to be put in place.
- Finalization of underground utility placement and concrete pour around the lower level of the garage.
