

April 21, 2022

Weekly Construction Activities, week of 4/25/2022

The Malone Family Tower

- Ongoing material deliveries to the construction site.
- Concrete foundation pours will continue through May. The concrete foundation walls are being waterproofed.
- The steel columns and beams and decking for a portion of the second and third floors of the building are starting to be put in place.
- The concrete reinforcing work at the Visitor's Garage entry will occur. Expect intermittent traffic delays.
- The cranes on the site are very busy placing materials in the proper location.
- Gilman Street will be closed for a period of time between 4/25-5/6 to safely erect steel structure, piping, and earth retainage. A Street will remain open, providing access to the neighborhood.
