

April 22, 2021

Weekly Construction Activities, week of 4/26/2021

Congress Street Enabling:

- Installation of steel piles, to support excavation, will begin on Monday, May 5, and is expected to be complete by the end of that week. There will be noise and slight vibration due to this operation.
- Work on retaining wall, excavation supports and additional tie-backs will continue around the site.
- Trucking deliveries and removal of materials continues.

Scarborough Medical Office Building:

- Building enclosure near completion.
- Ongoing trucking and deliveries on Campus Drive.
- Interior fit-out ongoing; Framing, Electrical, HVAC and Drywall.
