## Weekly Construction Activities, week of 5/23/2022

---

### **The Malone Family Tower**

- This week a water line replacement will take place on the Crescent Street access road adjacent to the Bean building. Expect traffic delays in this area as the work is completed.
- Concrete foundation pours will continue through May. The concrete foundation walls are being waterproofed.
- Trucks continue to deliver grade material to the site, backfilling certain areas to prepare for grading.
- Ongoing material deliveries to the construction site.
- The steel columns and beams and decking are being put in place.
- The concrete slab will be poured on the steel deck on a portion of the building.
- The cranes on the site are very busy placing materials in the proper location.
