Weekly Construction Activities, week of 6/13/2022

The Malone Family Tower

- Concrete deck pours and removal of formwork continues. The concrete foundation walls are being waterproofed.
- The steel columns and beams and decking are being put in place; over one-third of the structural steel has been placed.
- Fireproofing is being installed on the structure.
- Mechanical and electrical infrastructure is being installed in the building.
- Backfill is being brought in to bring the level of soil to finish grade.
- Truck traffic continues; expect intermittent traffic delays during offloads.
- The cranes on the site are very busy placing materials in the proper location.
- Crews are working to mitigate nighttime lighting impact on the neighborhood.
