

Home Health Agencies in Maine

This handout has a list of HHAs that are located throughout the State of Maine.

After surgery, your care team will help decide **if** you need home services. **If yes**, your care team will submit a referral to the HHA of your choosing. The HHA will connect with you to schedule an appointment (also called a home visit). You **do not** need to call or contact the HHA that you choose before your surgery.

What is a Home Health Agency?

Home Health Agencies provide a variety of services to help you heal after your surgery. The skilled health professionals will help to coordinate the care and/or therapy that your surgeon orders for you.
